

# ICCARUS 2023 Hybrid Meeting Concept

D. Rieger, C. Steger, A. Thomas, D. Egerer, B. Kress

## Boundary Conditions

- Switching to a full online ICCARUS has to be possible within a few days if necessary.
- Remote participants may not be excluded from presenting their work.
- Mixture of plenary sessions incl. Keynote Speeches and poster sessions shall be retained.

## Plenary Sessions

- Hybrid mode; speakers and participants have to choice to participate in person or remotely

## Poster Sessions

- In-person poster session are without doubt the best possible option
- *But:* The poster sessions have to be open without any restriction to the online audience
- Gathertown turned out to be an amazing tool for online poster sessions
- Only reasonable option: *Fully online*
- Short introduction to each poster at plenary?

## Working Group Meetings / STC meeting

- No technical equipment for multiple high-quality hybrid meetings
- Purely online in the week before or after ICCARUS?
- *Alternating pattern* with in-person meetings at COSMO-GM/CLM-Assembly

## Time considerations

- Monday 6 March –Wednesday 8 March: Plenary Sessions
- Thursday, 9 March, afternoon (everyone should be home again): Online Poster Session in Gathertown

## Ice Breaker & Coffee Breaks

- Only exception to 'Remote participants may not be excluded'
- Provide a platform for in-person discussions
