

Table of Contents

Editorial	1
<i>Michal Ziemianski</i>	1
1 Working Group on Numerical Aspects	3
Horizontal nonlinear Smagorinsky diffusion	
<i>M. Baldauf, G. Zängl</i>	3
2 Working Group on Physical Aspects	8
Tests of TILES/MOSAIC parametrisation in COSMO model	
<i>G. Duniec, A. Mazur</i>	8
A Smagorinsky-Lilly turbulence closure for COSMO-LES: Implementation and comparison to ARPS	
<i>W. Langhans, J. Schmidli, B. Szintai</i>	20
3 Working Group on Verification and Case Studies	32
Post-processing COSMO output for improved wind forecasts	
<i>C. Sweeney, P. Lynch, P. Nolan, J. Courtney</i>	32
QPF verification of Italian COSMO-models using different parameters of the precipitation distribution	
<i>M. Tesini</i>	36
Description and application of a budget-diagnosis tool in COSMO	
<i>W. Langhans, O. Fuhrer, J. Schmidli</i>	43
A Note on the Direct Comparison of Synthetic Satellite Images from COSMO Model with MSG Products	
<i>A. Euripides</i>	52
Comparative Evaluation of High Resolution Numerical Weather Prediction Models COSMO-WRF	
<i>B. Maco, M. Bogdan, A. Iriza, C. D. Barbu, R. C. Dumitrache</i>	56
Selected COSMO-2 verification results over North-eastern Italian Veneto	
<i>A. M. Rossa, F. Domenichini, B. Szintai</i>	64
4 Working Group on Predictability and Ensemble Methods	72
Comparing COSMO-LEPS and COSMO-SREPS in the short-range.	
<i>C. Marsigli, A. Montani, T. Paccagnella</i>	72
Appendix: List of COSMO Newsletters and Technical Reports	77
