

28th COSMO General Meeting

Rome, Italy

PP APOCS: Monday, 14th September 2026

Parallel Session VA: Tuesday, 15th September 2026

PP APOCS, Chair: A. Surowiecki		
Session: Monday, 14th September 2026		
Room: Leonardo		
Webex: https://comlog.webex.com/comlog/j.php?MTID=m7091dfef54ffa587c54b60492d6ff385		
9.00 – 9.25	Artur Surowiecki, IMGW-PIB	Development of the COSMO PWS Database - current status and further plans
9.25 – 9.40	Madgalena Szaton, IMGW-PIB	Development of a quality control procedure for CML-derived precipitation data
9.40 – 10.10	Valeria Garbero, ArpaP	Quality control methods for non-conventional rainuange datasets and measurement data from non-official weather station networks
10.10-10.25	Dimitra Boucouvala, HNMS	Dataset preparation over the Greek domain
10.30 – 11.00	<i>Coffee break</i>	
11.00 – 11.15	Madgalena Szaton, IMGW-PIB	Improving RainGRS+ precipitation estimates by combining different data types in a more efficient and seamless manner
11.15 – 11.30	Adam Jaczewski, IMGW-PIB	Application of PWS data to the verification of NWP models in urban areas
11.30 – 11.45	Artur Surowiecki, IMGW-PIB	Application of gridded RainGRS + precipitation estimates for assimilation in RUC models
11.45 – 12.05	All	Summary and discussion
12.30 – 14.00	<i>Lunch</i>
